

Book Review

Number the Stars **Lois Lowry, isbn 0440227534**

If you are looking for a good book about history in the 1940s, then *Number the Stars* is for you! This story is about a girl named Annemarie and her best friend Ellen, who is Jewish. In this time period, the Nazis are “relocating” Jewish people. Annemarie must be brave and help her friend escape to Sweden for freedom.

This story is good for grades 4 and up. It deals with courage, bravery, and working with others. If you take the time to read this book, I know you will not be disappointed.
