

Coral Reef

WRITTEN AND ILLUSTRATED BY RICHARD GRAHAM

PHOENIX, ARIZONA

The clown fish and the sea anemone make a good pair.

A hermit crab scuttles without a care.

The jellyfish is quite a fellow,

For it seems that he is made of jello.

The green moray eel

Looks for a meal,

But the puffer fish

Is not a good dish.

His spines
Are like a porcupine's.
The reef shark has quite a bite,
So the green sea turtle stays out of sight.
The squid shoots out a thick black ink
That covers the coral that is bright pink.
The ocean is big and blue.
I think you would like to live there too.
